About Me

Pre-final year CSE student and full-stack developer who ships real products: sole developer of LICET's CSE department ERP, founder of Riven Devs, and builder of Clareo (115 automated tests). Skilled in Java, Python, TypeScript, PostgreSQL and applied AI. Seeking Summer 2027 software engineering internships.

Education

Loyola-ICAM College of Engineering and Technology (LICET), Chennai — B.E. Computer Science and Engineering *2024 – 2028*

CGPA 8.09/10 · Coursework: Data Structures & Algorithms, Operating Systems, DBMS, OOSE, Neural Networks & Deep Learning

St. Joseph Matriculation Higher Secondary School, Ambattur — Class XII *89% · 2024*

Experience

Sole Developer — CSE Department ERP (LICET Things), LICET · Next.js, Supabase, PostgreSQL · cseerp.vercel.app *Mar 2026 – Present*

- Built a 3-role (Student, Faculty, HoD) portal for attendance, marks, timetable, curriculum, exams, placements and leave; now being handed over to the department.
- Designed normalized PostgreSQL schemas with Row Level Security and versioned migrations (Course Outcomes CO1–CO6) deployed via Vercel CI/CD.
- Fixed a **race condition** that corrupted concurrent attendance saves; added register locking, XLSX export and CIA 1/2 + SEE mark entry.
- HoD dashboard with semester attendance, **below-75% alerts**, pass rate, per-section daily attendance and faculty workload.

Founder & Full-Stack Developer — Riven (Riven Devs) · independent software & web studio *Sep 2026 – Present*

- Founded Riven Devs to build websites and software products for clients, handling requirements, design, development and deployment end to end.
- Delivered a client website for **Lincy's Makeover Artistry**.
- Turned the EyeGuard hackathon idea into **Clareo**, Riven's first product, with team accounts, SSO and Razorpay billing.

Student Contributor — NBA Accreditation, CSE Department, LICET *2026*

- Supported event management, documentation and data handling for the department's NBA accreditation.
- Conducted a workshop for **63 first-year students** on building effective presentations with AI tools.

Projects

Nijam — Multilingual AI Scam-Defence App · Web, Android, iOS *Pre-launch*

- Built a multilingual AI scam-detection app for **Tamil, Telugu and Kannada-first** users; leading launch readiness incl. app-store permissions and compliance.

Clareo — On-Device Eye & Fatigue Wellness Coach · React, TypeScript, FastAPI, PostgreSQL, Electron *Sep 2026 – Present*

- Privacy-first web + Electron app: **100% of camera frames** processed on-device in Web Workers; alarm fires **~1.2 s** after eyes close.
- FastAPI, SQLAlchemy/Alembic, PostgreSQL backend with SSO (Google, GitHub, Microsoft, OIDC) and Razorpay billing.
- **115 automated tests** (61 backend, 54 engine); **12/12** real closed-eye samples detected with **0/46 false positives**. Grew from EyeGuard (Top 7, Ctrl+Alt+Hack 2.0).

NNDL Hub — Class Community with RAG Assistant · Next.js 15, Supabase, Gemini API *Sep 2026 – Present*

- Platform for two CSE sections with roll-number sign-in, forum, materials library and **Ask Axon**, a Gemini RAG assistant that cites course PDFs and flags out-of-syllabus answers.

oLearn — E-Learning Platform · Java, Spring Boot, REST, H2 · github.com/johnbosco-j/oLearn *May 2026*

- Led a **4-person team** through a 14-day Agile sprint; modelled enrollment as a **6-stage state machine**; wrote the SRS and UML.

Systems Projects · C, Python, WebAssembly · 8086 emulator *2026*

- 8086 Trainer Kit Emulator (registers, flags, 16-bit arithmetic); Stockfish chess client via WebAssembly in a Web Worker; OS algorithms in C (Banker's, paging, disk scheduling).

Technical Skills

Languages: Java, Python, C, TypeScript, JavaScript, SQL
Backend: Spring Boot, FastAPI, REST, WebSockets, SQLAlchemy, Alembic
Frontend & Platforms: React, Next.js, Vite, Tailwind CSS, Electron, Expo
Data & Infra: PostgreSQL, Supabase (Auth, RLS), Vercel CI/CD, Git, GitHub, Linux
AI: RAG, Gemini API, Claude API, MediaPipe, OpenCV
Concepts: DSA, OOP, concurrency, state machines, SSO/OIDC, automated testing

Achievements

- **Top 7**, Ctrl + Alt + Hack 2.0 (LICET, Mar 2026) — led team EyeGuard · **5th place**, Buildathon 3.0 (Jan 2026) · Phase 2, BitWorks Hackathon
- **1st place**, Logo Lock — Kranti 2026 national technical symposium (CSI Chennai Chapter)

Certifications

Hedera Certified Developer Associate (HCDA), HCF & HBF — The Hashgraph Association (Aug 2026) · Oracle Database Management Systems · NPTEL German I · Java Fundamentals Placement Training (Bytsone, ongoing)
